## Teen Car Wash Brings In \$340

Though they were rained out in their first attempt on Saturday, July 19, the Niles Teen Center successfully held a car wash the following week raising \$340 to be split between the center and Habitat for Humanity in Lake County.

After a hand full of teens washed seven cars on July 19, 18 teens came back the following Saturday and washed about 30 cars at Golf Mill in Niles outside the center between Sears and the Golf Mill movie theater. Money raised will be split with \$170 going to Habitat and \$170 going to support programming at the Teen Center.

Teen Center Supervisor Sean Miller said this is the first event to raise money for an outside charity since the Teen Center moved to Golf Mill from Howard Street and Caldwell Avenue last year in June.

He said the center plans to hold some sort of charitable fundraiser for an outside organization on an annual basis, though he said what kind of event and which charity that would be was still an open question.
