NILES VILLAGE HALL CLOSED FRIDAY, JUNE 26 VEHICLE STICKER DEADLINE DELAYED UNTIL END OF JULY

Village Hall will be closed on Friday, June 26, 2020. As a precaution, the building is being sanitized following a COVID-19 exposure. For information on the COVID-19 pandemic including resources for those who wish to be tested for COVID-19, visit www.vniles.com/COVID-19. The Village of Niles made an automated call to the public announcing the closure and the COVID-19 case. The recorded message can be heard by dialing (847) 588-8080. Village of Niles staff continues to closely monitor the situation surrounding the novel COVID-19 Coronavirus and evaluate the best course of action for protecting the community.

Due to the COVID-19 pandemic and this most recent interruption in Village Hall hours, the Village is announcing that the vehicle window sticker deadline has been pushed back by one month. Residents and businesses now have until July 31 to purchase their sticker. Enforcement of displaying vehicle stickers will begin August 1. Village staff is still available by calling 847-588-8000, and vehicle stickers can be purchased online at www.vniles.com/onlinebillpay.

The Village would like to assure the public that the risk of any visitor to the lobby of Village Hall having contracted the disease is low. The infected individual was an employee who does not interact regularly with residents and did not come into contact with many employees. While the employee did come in contact with other employees, these were also not employees who regularly come into contact with residents. The afflicted individual was consistently wearing the appropriate Personal Protective Equipment (PPE) while in the workplace, which makes exposure within Village Hall even less likely.

The first floor of Village Hall, including vehicle sticker purchasing through the Finance Department, is expected to reopen to the public on Monday, June 29. Village Hall will be open for normal hours beginning, Monday, as part of the Village's gradual pandemic reopening plan.

Once again, the Village of Niles would like to assure the public that due to the affected employee being relatively isolated in the building, lack of interaction with visitors to the Village Hall lobby, and the regular practice of wearing PPE in common areas, the risk of other individuals having contracted the novel Coronavirus within Village Hall is low.

For assistance with vehicle window stickers, call (847) 588-8000 or visit www.vniles.com/onlinebillpay.
