Released on September 16, 2020

### Caught in the Act! Niles Police Department issues Slurpee® Coupons for Safe Driving of Bicycles and Automobiles

**Niles, IL** – 7-Eleven celebrates 25<sup>th</sup> anniversary of Operation Chill®. For a quarter century, Operation Chill®, 7-Eleven, Inc.'s longest running community service program, has given local law enforcement an opportunity to make a positive connection with kids through free Slurpee® drink coupons. Each coupon can be redeemed for one small Slurpee® drink at participating 7-Eleven stores.

“With a simple Slurpee® coupon, the Operation Chill® program lets Niles Police Officers connect with kids and recognize their good behavior, which is essential to creating long-term positive relationships”, said 7-Eleven President and CEO Joe DePinto.

This program allows law enforcement officers to award local community members observed doing good deeds or exhibiting positive behavior in the community with drink coupons.

“The Niles Police Department has actively participated in this event since 2013”, said Chief of Police Luis C. Tigera. Tigera went on to say that, “these coupons allow for positive dialogue between community members and our staff which will only grow our already strong community relations in the community”.

The Niles Police Department is excited to participate in this event once again. Below are photos of interactions from this year's campaign so far.
