NPD Squad Garage Grand Opening

Niles, IL – Today, the Niles Police Department held our grand opening for the newly constructed squad car garage. The NPD squad car garage construction began in 2020 and was completed in 2021.

The budget for the squad car garage was \$4.6 million and came in under budget at \$3.3 million.

The squad car garage features an animal control room for safe containment of lost pets and a holding space for nuisance animals. It also has a car wash that is usable for Village of Niles vehicles.

This squad car garage will help to extend the life of our fleet vehicles and police electronics.
