Service Address

Dear Village of Niles Residents and Small Business Owners,

On April 9<sup>th</sup>, 2013, voters in the Village of Niles approved a referendum allowing the community to enter into an electricity purchasing agreement to maximize electricity supply savings for its residential and small business customers.

For the past year, residents enrolled in the electricity choice program were receiving its electricity supply from Homefield Energy. This agreement is set to expire May 31, 2015.

**Great News!** After an extensive bidding process, the Village has decided to renew its Electricity Choice Municipal Aggregation program and has selected **IDT Energy, Inc. (IDTE)**, to supply eligible residents and small business customers with electricity supply.

**Your New Electricity Supply Rate:** Eligible members of the program will be billed the IDTE per kilowatt hour (kWh) supply rate listed below through your May 2017 ComEd billing cycle.

Supplier	Rate ¢/kWh
ComEd (Effective Supply Rate, May 2015 billing cycle)	8.072
Homefield Energy (Expires May 31, 2015)	7.621
<b>IDT Energy, Inc.</b>	<b>6.899</b>

**Billing:** You will continue to receive a single bill from ComEd, with IDTE's electricity supply charges included in the supply portion of your bill. You will continue to be eligible for all ComEd payment options, including budget billing. In addition, if you are currently enrolled in the state's Percentage of Income Payment Plan (PIPP) program, you will continue to receive the program's full benefits. ComEd continues to be responsible for the wires, poles, and all emergencies including outage restoration.

**Enrollment is Automatic!** If your supply service is currently with Homefield Energy or with ComEd, **THERE IS NOTHING MORE THAT YOU NEED TO DO in order to participate.** There are no fees to take advantage of the Village program, and your switch to IDTE will happen automatically beginning with your June 2015 billing cycle. Once your account has been transferred to IDTE, you will receive notification from ComEd. Upon receipt, you will have 10 business days rescind participation, as provided by ComEd.

If you previously opted out of the Village program and chose an alternative energy supplier, your account will remain with that supplier unless you decide to Opt-In to the Village of Niles program. You may do so by visiting [www.IDTEnergy.com/VillageofNiles](http://www.IDTEnergy.com/VillageofNiles) or by calling IDTE directly at 1-877-887-6866 (M-F, 7:00am to 5:00pm CDT).

**Can I Opt-Out?** You are not obligated to participate in the Village program. If you wish to be excluded and retain ComEd or another supplier, you have 21 (twenty-one) days from the postmark on this notice to respond, either by mail using the enclosed postage paid reply card, online at [www.IDTEnergy.com/VillageofNiles](http://www.IDTEnergy.com/VillageofNiles) or by calling IDTE directly at 1-877-887-6866 (M-F, 7:00am to 5:00pm CDT).

**Keep In Mind...**

- ✓ If you do nothing, you will be automatically enrolled in the Village program.
- ✓ ComEd continues to bill for service, deliver electricity, and respond to outages and emergencies.
- ✓ No one representing the Village of Niles will come to your door or call you to switch to a new supplier – Anyone who does is NOT representing the Village or this program.
- ✓ There are NO up-front fees or cancellation fees required.
- ✓ Village of Niles residents who participate are eligible to register their electricity meters to earn IDT Energy® Online Rewards! Earn points for every kWh supplied and redeem them for retailer gift cards and other really great branded merchandise.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Przybylo". The signature is fluid and cursive, with a large loop at the end.

Mayor Andrew Przybylo  
The Village of Niles  
1000 Civic Center Drive  
Niles, IL 60714

**Disclaimers and other notifications:** Customers may request a free list of other supply options from the Illinois Power Agency. Net metering customer may forfeit credits for electric supply service and delivery service, or both, if they switch to an Aggregation supplier. IDT Energy, Inc. is licensed to supply electricity in Illinois (Electricity, 12-0428). Contact IDT Energy by phone at 877-887-6866 or via mail at PO Box 400, Jamestown, NY, 14701.
